

GD5 Battery

Freedom to clean everywhere

- cordless backpack vacuum

Powerful, reliable and mobile design

The Nilfisk GD 5 Battery vacuum cleaner offers all you need to get the job done faster - leaving the need for cords and power outlets behind you.

Adding to this extreme mobility, the machine has a long runtime, fast battery charging, and special boost function to ensure an extraordinary productivity. Switching between two 36V Lithium batteries will enable you to work non-stop. Just put it on and get going!

The backpack design will let you work with ease! Being compact and mobile, the Nilfisk GD 5 Battery will deal effectively with dust in facilities with limited space between seats, tables, and shelves. The machine is an ideal choice for cafes, restaurants, shops, cinemas, auditoriums and conference rooms, as well as transportation.

When the going – and the dirt – gets tough, just turn on the boost function and extra suction power will be added to ensure an optimal cleaning performance. It all happens at a speed which cannot be matched by mains powered vacuum cleaners, and thanks to the best in class sound pressure level from just 60 dB(A), daytime cleaning is an option.

- Maximum freedom and mobility due to the cordless and ergonomic backpack design
- High productivity with up to 60 minutes of runtime on a fully charged 36V Lithium battery
- Best in class charge time of only 40 minutes offers continuous cleaning with the use of two batteries
- Safer cleaning environment for guests, visitors and the operator with no cord to trip over
- Optimal performance with boost function adds suction power for heavy duty cleaning
- Low sound pressure level from just 60 dB(A) enabling cost-effective daytime cleaning

Easy to reach on/ off switch with power boost function for extra in depth cleaning performance

Accessory storage right at your hand

Easy access to the battery makes it quick and simple to re-charge

Technical specifications

Description	Unit	GD 5 Battery
		eco / power boost
Item number		41600842
Voltage	V	36
Battery type		Lithium Ion
Rated power	W	650
Power consumption	W	190/465
Sound pressure level ISO 11203	dB(A)	60/65
Sound power level ISO 9614-2	dB(A)	73/78
Suction power end of tube	W	45/116
Airflow	l/sec.	21.7/26.7
Sack filter area	cm²	1397
Pre filter area	cm²	35
Length x width x height	mm	240x330x755
Weight (machine only)	kg	5.3
Weight w/ batteries	kg	8
FEATURES:		
Power boost		•
Dust bag (1pcs)		•
Fast charging		•

For convenient cleaning of those hard to reach places, the backpacks are the answer

Cleaning with convenience

Wide selection of accessories available to meet specific applications

There are many things that should be present in a good backpack vacuum cleaner. It should be light in weight, with even weight distribution, and the noise level must be as low as possible. Without these basics, a backpack vacuum cleaner is uncomfortable and impractical to operate. At the same time, the power needs to be sufficient for fast, effective cleaning, and the dust bag must be large enough to avoid constant changing. Above all, the cost of cleaning must be right!

The Nilfisk GD 5 backpack vacuums surpass all criteria, with technical advancement that shows in every Nilfisk product, making fast productive cleaning at a price that won't bust your budget.

- Low sound level for operator comfort and cleaning in noise-sensitive areas
- Lightweight vacuum cleaner and a harness that is ergonomically designed to reduce fatigue
- Good filtration with HEPA filter option
- Durable construction for longer working life
- Containers in different sizes to fit the application
- 15 metre detachable cable with safety release saves time
- Easy to store as it stands on the floor or can be wall hung
- Suitable for left or right handed use
- Excellent power/weight/price ratio
- Exhaust air designed so that it does not interfere with the operator

Easy to install optional HEPA filter for allergy & asthma sufferers

Accessories are stored on the belt for easy access

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Dust bag and filters are easily accessed without the need for tools →

Exhaust air is directed away from the user to avoid heat and will not blow papers off the desk →

← Comfortable carrying harness for less fatigue

← Super quiet motor won't create disturbance

← Interchangeable motor part
