Features

Robust hand built machine with three piston crank pump and 4 pole motor, powder coated steel chassis and stainless steel cover.

Accessories (please contact us for more details)

Foam Lance

Ideal for applying foam based detergents to walls and vehicles.

Wash Brush

The use of a wash brush can reduce cleaning time and improve the result through the more effective use of the water, and detergent at any temperature.

Hose Reel

Enables the efficient storage of hoses without kinking and prevents damage. Available in stainless steel, powder coated, retractable and manual versions

Quick Release Gun

Designed to offer comfort in cleaning, with a low level of activation and holding forces, plus the design fits to hand shape. Additionally the quick release couplings enable the quick change of lances and accessories.
